Special Council Meeting  
January 19, 2005  
City Hall

Mayor Kaiser called the meeting to order at 6:00 p.m. All members were present. Others attending were Tim Murray, Pat Merritt, Andrew Colwell, Paul Beiser, Dave Rasmussen, Bob Foster, John Anhorn, Ross Olson, Rich Kucera, Greg Sanborn, Lois & Dave Nelson, and Jeff Karow.

The purpose of this meeting is to meet with Kami, Inc representatives regarding a proposed development of the property known as the Williams/Barta property.
The concept plan was outlined by Dave Rasmussen. 117 townhomes, 55 single family units, and commercial retail area with possible hotel in future. The development is approximately 50 acres. Kami, Inc has an option to purchase this property pending the approval of the city.

Mayor Kaiser stated that he is in favor of the concept plan as presented by Dave Rasmussen. Sexton is in favor of the plan as well and likes the green space included. Corbin is in 100% favor of the plan presented. Clemmensen is in favor of the plan. DeMars is in favor of the plan but would like to see more commercial development along with it. DeMars also stated a concern about the school being able to handle the additional students to go along with the residential area.

Over all, the consensus of the Council is to support the general concept of the project.

Discussion of the southern portion of the property. This area is not under contract with Kami at this time.

Other items the council needs to consider for this project: The leg off the round-a-bout to the west. This road needs to be developed. Public safety for the entire area. Green space maintenance. Eliminate the islands in the middle of the cul-de-sacs. Municipal liquor store possibilities; Kaiser opposed, Corbin either way, Sexton in favor, DeMars mixed feelings about a city owned bar/restaurant or off sale.

Mayor Kaiser asked about the phasing of the project. Dave Rasmussen stated that he sees phasing over a period of 4 to 5 years to absorb all the development.

The next step is working on the financial package, the impact of this development on the water treatment facility and the water supply. The extension of the road (leg to the west off the round-a-bout) is part of this development.

Bob Foster stated that the park land would be deeded to the City. Sexton questioned whether there could be a park fee added onto the sale price of the lots that would go towards the maintenance of the green space-park area.

Motion by Corbin, seconded by Sexton to adjourn at 6:50 p.m. Carried.

Minutes approved at _____________________________ meeting.

The Civic Club questioned the city sponsoring Straight River Days this year for liability insurance coverage for the event. Mayor Kaiser said that this request was denied last year, but if the Civic Club would like to research this and make a formal request to the council, it would be considered at that time.
The Civic Club would like to fence off the park area for Straight River Days this year. It was suggested that they prepare a plan for the fencing and contact the park board to submit this request prior to the next council meeting.

Maroney, and Lois Nelson.

The purpose of this meeting is to further discuss the Williams/Barta Development.

Dave Maroney presented a written summary of the discussion held at the special meeting on March 22, 2005. The council
went over the points as written in the summary. The consensus of the council is that the summary was accurate as to the
points made for the development.
The next step for this development would be to sit down with the developer to negotiate a developers agreement that
incorporates the points already discussed.
The liquor store option will be discussed further. Dave Maroney is researching this possibility.

Bruce Bullert and Dave Maroney will complete a draft of a developer’s agreement from the discussions so far. The draft will be completed for the packets going out prior to the next regular meeting.

The Regular Council Meeting on April 25, 2005, will start at 6:00 p.m. to review the draft with the developer.

Mayor Kaiser and Dave Rasmussen will meet between now and the regular meeting with the County to discuss roads

Mike Grossman expressed his concerns about this development and the wastewater treatment facility capacity to handle it and also about the well and water issues facing the city. Mayor Kaiser explained that the water issue has to be addressed regardless of this or any development or if there were no development in the city, and that there is currently a plan to upgrade the wastewater treatment facility already in place just waiting on a financing plan.

Mike Sjulstad questioned the capacity of the round-a-bout to handle commercial development or more the truck traffic that would be generated from commercial development. Mayor Kaiser and Council Member Corbin both addressed this stating that the round-a-bout is a challenge for commercial trucks and that is why the commercial development is somewhat limited.

The next meeting will be the Regular Meeting on April 25, at 6:00 p.m.  
Motion by Corbin, seconded by Clemmensen to adjourn at 6:47 p.m.  Carried.
