Mayor Thomas called the meeting to order at 7:00 p.m. Members present were Thomas, DeMars, Merritt, Sexton and Grayson.

Others attending were Heather McCallum, Amber Kniefel, Greg Nelson, and Bill Effertz, Michael Collins, Dan and Mona Kaiser, and Jim Slifka.

The purpose of this meeting is to allow property owners the opportunity to review the market values for tax purposes as set by the Steele County Assessor’s office.

Bill Effertz gave an overview which compared Medford’s tax base and taxable market values to other communities in Steele County.

Michael Collins, parcel #16-101-0213, is in attendance with concerns with his property valuation. Mr. Collins is the owner of First State Bank of Red Wing. Mr. Collins is concerned with the increase in market value by approximately 14% from 2010. The valuation went from $167,000.00 to $190,000.00. Mr. Collins stated that there have not been many improvements made to the building since he purchased it. There are some major repairs coming in the future.

Mr. Effertz, Steele County Assessor, explained the reasoning behind the valuation. Effertz explained the overall increase, number of commercial sales, and condition of the building all factored into the decision. Mr. Effertz is recommending to the council to leave the valuation at $190,000.00.

Motion by Grayson, seconded by DeMars to defer this parcel back to the county board for final determination. Carried.

Dan and Mona Kaiser, parcel #16-101-4100, are questioning the valuation of their office building on Main Street. Mr. Kaiser explained that the market value of the building has been increasing every year, but this year the increase was approximately 25%. The valuation went from $196,000.00 in 2010 to $245,000.00 in 2011. Mr. Kaiser is asking for the valuation to be lowered.

Mr. Effertz explained the various factors that went into determining the market value for this property. The assessor was open to visiting the building and gathering additional information to possibly reduce the value based on that information.

Mr. Kaiser is asking for a reduction made by the council instead of deferring to the County Board for determination.

City Administrator, Heather McCallum, suggested a starting point of a 10% increase instead of a 25% increase. This would lower the market value down to $215,600.00.

Motion by Grayson, seconded by Sexton to reduce the valuation by $19,600.00 to a valuation of $215,600.00. Carried.

Jim Slifka, parcel #16-104-0103, is asking the assessor and the council if the market value is reflective of the new floodplain designations from 2011. The assessor responded that the floodplain designations were not considered as the maps were approved after the dates for determining market value.

Motion by DeMars, seconded by Grayson for the assessor to reevaluate Mr. Slifka’s property with consideration of the floodplain designations. Carried.

All other properties that were designated as being in the floodplain will be evaluated that way for next year’s board of appeal.

Motion by DeMars, seconded by Grayson to adjourn the board of appeal and equalization at 8:40 p.m. Carried.

Steele County Law Enforcement – None.

Medford Furniture Outlet Sewer Reimbursement Request – Brandon Eberhard, the Controller for the Furniture Mart, submitted a written request for reimbursement for a portion of their 2011 sewer charges. Mr. Eberhard spoke with Kniefel and McCallum on numerous occasions concerning a grievance of the process the City of Medford uses to calculate sewer charges. McCallum explained that the calculations follow city code. Mr. Eberhard felt it was unfair to charge the Furniture Outlet the average usage for January, February, and March when there was evidence of a large water usage during those months in 2011. The average usage then dropped in 2012. Mr. Eberhard could not give a reason for the large water usage at the beginning of 2011. A question about whether the ordinance should remain as written was raised.

Council discussed the process in the code to average the first three winter months of the year to determine sewer averages for the rest of the year. City Engineer, Seth Peterson, explained that many cities use this format since the majority of properties use the least amount of water in the winter months. If a property owner can present reasonable evidence that a water leak has occurred during those months, the city does work with the owner to adjust the average sewer usage amount.

Motion by Grayson, seconded by DeMars to deny the request for reimbursement based on the proper application of the city code and to leave the ordinance as written; McCallum will contact Mr. Eberhard. Carried.

Consent Agenda – Agenda items are approved by one motion unless a Council member requests separate action.

Consent agenda items include:

Resolution 2012-22 Accepting Donation from Our Homes South, Inc. in the amount of $100.00 for the Park Endowment Fund.

Motion by Sexton, seconded by Merritt to approve the consent agenda as presented. Carried.

Thank you to Our Homes South for the donation.
Planning and Zoning Board. Pat Merritt presented the Zoning Board minutes from the May meeting. The Zoning Board heard a request from Craig Schlaak concerning the fence code. Mr. Schlaak would like the board to consider changing the two foot setback requirement to allow fences to be on the property line. The board made a recommendation to City Council not to change the fence ordinance.

Administrator McCallum explained the conversations city staff has had with Mr. Schlaak. According to the city code, Mr. Schlaak is eligible to receive at least two fines. One fine for not acquiring a fence permit and the other fine for placing a fence that is not in compliance with city code.

Council consensus is to leave the fence ordinance the way it is written. Council agrees that the code gives Administrator McCallum discretion regarding fines and abatement schedules. Rahrick stated that since Mr. Schlaak appealed to the Zoning Board, the council could make a motion to assure the intent is clear.

Motion by Sexton, seconded by DeMars to assess Mr. Schlaak fines for both offences; not acquiring a fence permit and the for building the fence not in compliance with city code. Carried.

Fire Department – Rick Hager and John Anhorn presented a request for the purchase of the 800 MGHZ radios. The fire department was awarded a FEMA grant in the amount of $85,905.00 to assist with the purchase of the radios. The City needs to contribute 5% of the total project cost.

MNDOT is going to be working on the roundabout in 2013 as well. Peterson presented that this would be a great opportunity for city infrastructure improvements.

The City would like to give Clayton Just a special thank you for his generosity with the city flowers.

Public Works Department – Kucera presented a memo to the council highlighting various projects that have been worked on in the last month.

Non-metered Water Leak Repair Policy – Kucera explained that this policy will assist the city in being able to require a property owner to repair a leak that is located in the water line between the curb stop and the house. The water is not metered, but a leak is still the responsibility of the property owner to repair.

Motion by Grayson, seconded by DeMars to approve the Non-metered Water Leak Repair Policy. Carried.

Liquor Liability Insurance Renewal – Dave Rubey, Americana Insurance Agency and Tony Baldwin, Wells Fargo Insurance Services USA

Dave Rubey presented to the City Council his recommendation for the City to remain with Founder’s Insurance for our Liquor Liability. The company is stable and the City has been with them for many years. The chance of Founder’s cancelling our coverage over a claim is very unlikely.

Tony Baldwin presented information about Indemnity Insurance. The quote is approximately $3,000 less per year than Founder’s Insurance. Mr. Baldwin explained that these rates are lower for cities that are members of the Minnesota Municipal Beverage Association. The chance of being cancelled due to a claim is very unlikely and the City would not need an inspection prior to binding to a contract.

Dave Rubey explained that liquor liability companies are either admitted or non-admitted. Founder’s Insurance is an admitted company which means they comply to a different set of rules set by state statute.

Tony Baldwin stated that Indemnity Insurance is also an admitted carrier.

Mayor Thomas would like to table this discussion so the council can have more time to review the information presented. This will be discussed at the September city council meeting.

Youth 1st – Mark Arjes – Community Resolution 2012-38 Developing a City of Medford Chapter

Park Board – Theresa Sierakowski presented the minutes from the August meeting and the park/pool walk through.

Park/Pool Walk Through – Park Board recommendation to the City Council is to remove the horseshoe pits and make the area into a sand box with diggers. This area would be safe for kids both being located closer to the playground and having a fence along the riverside.

Council consensus is to allow the Public Works Department to remove the horseshoe pits and make the area into a sandbox.

Discussion of skateboarding on the tennis courts. Councilmember Sexton would like to know how much it costs to replace the tennis courts surface before allowing skateboarding on the courts. Councilmember Merritt suggests asking the school if they plan on utilizing the tennis courts.

Council consensus is to continue not allowing skateboarding on the tennis courts.

If the budget allows, the basketball courts will get the added concrete after reviewing plans and bids for the large pavilion work.

Pool Rates – Park Board is recommending and increase to the pool fees for the 2013. There had not been an increase for many years.

- Pool Rental - $50.00 for one hour - $100.00 for up to three hours
- Daycare Pass – Daycare must have a pass and each child must have their own pass
Councilmember Merritt feels the increase for a family pass is too much all at one time. Council discussion is to make the in-town family membership $95.00 and the out-of-town family membership $115.00.

Pool Rental – Council would like to see an increase for every hour the pool is rented. Council consensus for pool rental is $50.00 for one hour, $80.00 for two hours, and $100 for three hours.

Daycare Pass – Park Board recommendation is to require the daycare to have a membership and each child is required to have their own membership. In the past, the daycare would pay for a family membership and each child that did not have a family pass could be added to the daycare pass for $10.00 per child. The child could only swim under this membership when they are in attendance with the daycare. Council consensus is to eliminate the daycare pass option.

Motion by DeMars, seconded by Grayson to approve the single and weekly membership rates as presented, family in-town membership rate at $95.00 and out-of-town $115.00, pool rental rates will be $50.00 for one hour, $80.00 for two hours and $100.00 for three hours, and to eliminate the daycare pass. Central Avenue Rehabilitation Project – Peterson’s recommendation is to continue with the process and begin gathering feedback from all parties involved. Organize open forums for the public to attend and give feedback.

Mayor Thomas would like city staff and Peterson to organize a meeting after November 15th to include all the newly elected officials in the street rehabilitation project as well.

MnDOT held a meeting open to the public asking for feedback on the round-a-bout project. The City of Medford is asking MnDOT to postpone the round-a-bout project until 2014 to coincide with the Central Ave project with the County. The City should be hearing back within the next couple of weeks.

The council called a meeting for Monday, September 24, 2012 at 6:00 p.m. to discuss the budget and final levy.

Recycling Center Renovation – Steele County and Waste Management would like to upgrade the recycling center at the City Hall parking lot. Waste Management would like to place large roll offs out instead of the small rolling containers. The large roll offs will not be able to sit on the tar. They would like to install either concrete or gravel for the roll offs to sit on. Kucera and McCallum will work with Steele County and Waste Management to encourage concrete.

Handbook Amendment – McCallum presented a recommendation to amend the handbook to remove the section that salary paid employees can earn comp time by working over 47 hours in a work week.

They would like to save the new infant swing to replace the other infant swings if one was to be damaged. Sierakowski is asking the Council to add a handicap swing into the 2013 budget.

Kucera is recommending to the City Council to approve the presented Stage 2 Disinfection By-Product Rule Monitoring Plan.

Motion by Grayson, seconded by DeMars to approve the Stage 2 Disinfection By-Product Rule Monitoring Plan as presented. Carried.

The sludge suction line swivel elbow has a hole in it. The hole was found during pumping for biosolid application. The initial estimate to fix the line is $6,000 to $11,000.

Keith Maas asked if it was possible to change the pipe to a straight pipe and take the elbow out. Kucera said that could be a possibility.

Councilmember Merritt asked if city staff would be doing the work to fix the hole. Kucera stated that city staff cannot go into the sludge tank due to OSHA’s confined space rules. McCallum explained that since the City did not have a confined space program, city staff should not enter areas that are defined as confined space. McCallum and Kucera have been in contact with the League to get the City joined in a Regional Safety group.

City Council would like more information on the possible solutions on the hole in the pipe and also confined space.

Kucera informed the Council that he is working with FEMA on a possible grant to help with the costs to the effluent line in need of rehabilitation at the Wastewater Treatment Plant.

Old Business – None.

New Business.

Scheduling a special council meeting to discuss the utility rate study that Kucera and McCallum have been working on and also the final budget and levy.

Council consensus is to discuss the utility rate study, the budget, and the levy at the council meeting in November. The November council meeting will be moved from November 26 to November 19, 2012 starting at 6:00 p.m.

Correspondence on Sales Tax for Business Owners – A resident has asked McCallum to have a discussion with the businesses on the West side of the interstate about the sales tax. After much discussion on the regulations involving expending public funds informing about the sales tax, it was decided that the Mayor should contact the businesses and have a conversation on the sales tax possibility. There is much concern that Medford residents are not informed on the sales tax and the council is going to get more involved.

Additional city council concerns – None.

The EDA board is looking at amending the enabling resolution that structures the Economic Development Authority.

Park Board – Tabled until later in the meeting.
Fire Department – Fire Chief, Rick Hager, presented the township fire contracts and is recommending to the council for approval as presented. The contracts are updated every 3 years.

Motion by Grayson, seconded by Merritt to approve the Medford and Deerfield township fire contracts as presented. Carried.

Councilmember Grayson would like to discuss the administrator’s memo item about charging for emergency response calls.

Rick Hager explained that the majority of fire departments do not charge for first responder calls. The Medford Fire Department works with Gold Cross. Gold Cross handles all the billing for the first responder calls.

After a lengthy discussion on specific examples for charging for fire department services, the council decided to table the discussion until the next council meeting. City staff is directed to draft an example ordinance addressing when the City would charge for certain calls. Additional information and the draft ordinance will be presented at the December council meeting.

City Engineer – Seth Peterson addressed the General Construction wage compliance issues. The City should not pay out the entire retainage until the wage compliance issues are resolved with the MN Public Facilities Authority.

City Administrator Memo – McCallum presented a memo summarizing various items that have been worked on in the last month. McCallum will be out of the office on December 4, 2012 for the worker’s comp litigation case.

The City needs to draft a sales and use tax ordinance and submit to the Department of Revenue to move forward with the collection of the half percent sales and use tax. The Department of Revenue requires 90 days before the City can begin collecting.

Public Works Department – Kucera presented a memo to the council highlighting various projects that have been worked on in the last month.

Lois Nelson asked Kucera about the water loss that was presented in public works memo. Kucera answered that some water loss is typical. The Public Works Department focuses on keeping water loss under 10%.

The sealed bids for the 1976 Chevy resulted in Wayne Maas as the high bidder with the bid amount being $2,185.00. Kucera recommends to the City Council to approve the sale of the 1976 Chevy to Wayne Maas in the amount of $2,185.00. Motion by DeMars, seconded by Grayson to approve the sale of the 1976 Chevy dump truck to Wayne Mass in the amount of $2,185.00. Carried.

Old Business – 2013 Budget and Levy

Administrator McCallum presented a memo explaining a few amendments made to the budget since the last council meeting.

Mayor Thomas pointed out that in the packet were several levy scenarios, but really urged the Council to follow the five year financial plan.

The budget that has been presented projects a $95,909.00 surplus to be allocated towards the general fund deficit. The changes reviewed that caused the increase to the general fund deficit include:

- Staff wages will increase by 2% across the board, depending on employee evaluations, instead of a handbook increase.
- Youth 1st was added to the budget in the amount of $2,500.00
- Community Education was added to the budget in the amount of $1,000.00
- The capital outlay for the siding of the fire hall will be lowered. City staff will be involved with as much as possible to help lower the external labor costs
- Capital outlay for the streets department will be $26,000.00. Councilmember Grayson would like to allow Kucera to use the capital outlay as follows: $15,000.00 for a dump truck, $3,000.00 for the radios, and $8,000.00 for a lawn mower. Councilmember Merritt does not agree. Council consensus is to allow the $26,000.00 to remain in the budget and to use the funds as presented.

Council consensus is to move forward with the presented budget and leave the levy increase for 2013 at 10% allocating a projected $95,909.00 surplus to the general fund deficit.

New Business.
Water and Sewer Rate Study – Kucera presented a chart that shows the operation and maintenance costs of production of water and sewer per thousand gallons. The cost to produce 1,000 gallons of water is $3.43. The cost to treat 1,000 gallons of septage is $6.03. Staff is recommending an amendment to the way the City bills for water and sewer. Instead of an increasing block per thousand gallons, staff is looking at charging the actual cost to produce per thousand. There would no longer be a 3,000 gallon minimum. The presented change to the billing system is projected to cash flow the enterprise funds. Currently, the enterprise funds are running at a deficit every year which is depleting the water and sewer reserve funds.

Kniefel presented a spreadsheet that shows the 2012 rates as compared to the proposed 2013 rates and how the water bills would look.

In order to cash flow the funds, a usage rate would be charged to each account for both water and sewer of five dollars apiece. Then $3.43 per thousand for water and $6.03 per thousand for sewer would be charged.

The flat rates will need to remain the same until the sales and use tax revenue starts.

The City would be looking at a 2013 minimum bill for 1,000 at $62.49 and the bills would go up per thousand from there.

Councilmember Grayson asked about the late fee of 1%. Grayson does not feel this percentage is high enough to encourage timely payments of utility bills. Kniefel will research options with our software company and present a draft resolution at the December council meeting.

Ron Karow asked the council about a possible discount for paying ahead on the water bill for the months that he is not in town. Kniefel gave the option of disconnecting the water and only paying the disconnection and reconnection fees. Mr. Karow did not feel that was a viable option for him because he comes homes a few times in between.

Council did not feel that giving discounts for situations such as this was an option.

Mr. Karow also asked about the flat rates and when they would be lowered. Also, how the sales tax revenue would be allocated. The Council responded that the flat rates would be evaluated as soon as possible following revenue received by the sales and use tax. The goal would be to lower the flat rates on the bill.

Mr. Karow also wanted to ask the Council to look at lowering expenditures before raising the water bills. He also does not feel the City needs a new dump truck.

Park Board – Theresa Sierakowski presented the Park Board minutes.

The Park Board discussed the warming house and ice rink for this winter season. The Board discussed moving the warming house and the ice rink back down to Straight River Park.

Councilmember DeMars would like the warming house moved to the Park. That way, if the weather does not cooperate with an ice rink, the kids can still use the warming house for sledding.

Kucera recommends making the ice rink in the Park. Either location will cost approximately $600.00 to get the area ready.

Council all agreed that they would like to have an ice rink. Councilmember Sexton would like the ice rink to stay at the new city property. Councilmembers Merritt, DeMars and Grayson would like the rink in the Park.

The Park Board will discuss the ice rink and warming house at their next meeting on December 4, 2012 and come to the December council meeting with a proposed plan.

Park Board also reminded the City that they think the City should have a Facebook page.

Additional city council concerns – Evaluation of the City Administrator.

Mayor Thomas would like to have a meeting at 6:30 p.m. on December 17, 2012 to evaluate the City Administrator. The city attorney will guide the council on the proper procedure for the evaluation.

Next regular council meeting will be Monday, December 17, 2012 at 7:00 p.m. with the special meeting to evaluate the city administrator at 6:30 p.m.

Motion by DeMars, seconded by Grayson to adjourn at 8:22 p.m. Carried

City and Liquor Store Bills-Councilmember Grayson asked if the repairs to the Muni furnace could be covered by insurance. McCallum will research this.

Councilmember Merritt wanted the staff to know that electric companies offer rebates for certain situations, such as purchasing new equipment instead of replacing parts to old equipment. McCallum explained that the Muni furnace went out over a weekend and there was completely no heat. Fixing the furnace in a timely manner was very important instead of leaving the Muni closed.

Truth-in-Taxation Hearing – Dan and Mona Kaiser addressed the City Council. Dan Kaiser thanked all the council members, both incoming and outgoing, for their service to the City of Medford. The Kaiser’s wanted to speak with the council as a follow-up from the Board of Appeal meeting held earlier in the year. Dan and Mona Kaiser spoke at the Board of Appeal regarding their commercial market valuation given by the County. The market value increased 25% from the year before. The Kaiser’s requested a decrease in market valuation. The council decided to lower their commercial market valuation from approximately 25% to 10%.

The proposed 2013 budget increases the Kaiser’s commercial property taxes by 22%. The overall increase including the County, School, and City is 13%.
Mr. Kaiser wanted the council to be aware of the increases to commercial property taxes and to be very careful when planning the budget.

Councilmember Sexton understands that the burden is on the commercial properties.

Consent Agenda – Agenda items are approved by one motion unless a Council member requests separate action.

Consent agenda items include:

EDA – No meeting in December. The minutes included in the packet are from the November meeting.

Regional Safety Group – McCallum met with representatives from Owatonna and Faribault about developing a regional safety group. Medford and Owatonna are ready to move forward with the agreement, with Faribault handling a few details, but are positive about joining the group. Medford’s share of the League fees will be $1,000.00 per year which would include approximately 11 safety trainings per year.

Keith Maas asked where the trainings would be held. Mike Johnson, Steele County Emergency Management, created a schedule that would offer trainings rotating at each of the three cities.

Councilmember Merritt asked which city staff person would be the main safety administrator.

Administrator McCallum answered that both her and Public Works Director, Kucera would be in charge of the program. Kucera would be the main person in charge of scheduling the staff for appropriate trainings and McCallum would be the main contact between the cities in the regional safety group.
