

Wastewater Regionalization with Owatonna

CITY OF MEDFORD,
MINNESOTA

Project Personnel

WHKS is assisting the City of Medford to complete the Wastewater Regionalization with Owatonna. WHKS Construction Observer, Cory Felderman, will be on site and available to answer any questions and will work closely with the Public Works Department.

Project Contact Information

Brandon Theobald, P.E. (City Engineer)
Office: (507) 288-3923
Cory Felderman (Construction Observer)
Cell: (507) 358-4123

Project Funding

The City of Medford is funding the project with support through the State Bonding Bill.

Project Coordination

Construction may disrupt travel to and from your home, so please plan accordingly. We appreciate your patience and cooperation during construction.

Safety Tips

Here are a few safety tips to remember when traveling to and from your destination:

- » Be alert and watch for construction workers and vehicles entering and exiting the construction zone.
- » Please keep children away from the construction zone and equipment.
- » Remember to slow down in and around the construction zone. Watch for signs alerting you to changing road conditions.
